

# Category Data sheet

Anti-slip mats are used in transport to prevent cargo from shifting during transit. They increase friction between the cargo and the vehicle floor, enhancing stability and reducing the risk of damage or accidents caused by load movement.

For more details about various material and sizes please contact us.

## Features

- Wear-resistant, durable, re-usable
- Long-term solution
- Certified safety, high quality
- High coefficient of friction
- Made from recycled material
- Quick and easy handling
- Saves costs, as less lashing is needed

## About us

Technotex is a Dutch manufacturer with over 30 years of experience in the manufacturing of lifting and lashing equipment.

As of January 2024, all Unifixx products are being supplied from the central warehouse in Coevorden, where Technotex is located.

## Technical data

size in mm	guideline	density	weight per m <sup>2</sup>	packaging
5x200x100	VDI 2700	approx. 850 kg/m <sup>3</sup>	4.2 kg	200 box / 9600 pallet
8x200x100	VDI 2700	approx. 850 kg/m <sup>3</sup>	6.8 kg	200 box / 3000 pallet
4x150x5000	VDI 2700	approx. 850 kg/m <sup>3</sup>	3.4 kg	200 rolls per pallet
8x250x5000	VDI 2700	approx. 850 kg/m <sup>3</sup>	6.8 kg	45 rolls per pallet

The 4 products mentioned above are our most common items/stock items. We also have custom options in this case we can cut on rolls or on mats. The length is on request, width has a maximum of 1250mm. We offer the following thickness: 3, 4, 5, 6, 8, 10 ± 0.5 mm; 12, 15 mm ± 1.0 mm.

If you want more information on our sizes, specs and possibilities then feel free to contact us.

## Other products

We are a manufacturer and supplier for multiple productgroups. We can be your one-stop-shop for anything lifting, lashing and height safety related.
